

Position Announcement

“Mobile App Developer”

Date: October 2024

Position Description:

Material Insights (Registered as IMS Jordan for Technical Services), a dynamic startup in Amman, is seeking to fill several open positions for **“Mobile App Developer”**. The position primarily targets talented fresh graduates, but we welcome applications from students approaching graduation, as well as individuals with 1-2 years of professional experience. The general framework for these positions entails utilizing mobile development frameworks & techniques to develop mobile apps and interfaces for Machine Vision Systems and Database applications.

Major Responsibilities:

As a Mobile App Developer at Material Insights, your main responsibilities include: the design and development of pixel perfect UIs on both Android & iOS, and contributing to the creation of real time software systems.

Requirements:

- **Degree:** Computer Science, Computer Information Systems or closely related disciplines.
- **Prior Work Experience:** Not Required! Distinguishing candidates will NOT be based on work experience but rather “strong set of skills and knowledge demonstrated by commendable portfolio” and “attitude towards learning & exploring new directions”.
- **Desired Skills:** Strong Dart/Flutter Programming skills. Solid understanding of mobile app development lifecycle. Knowledge of State Management concepts, API Integration and Networking, and async programming. Knowledge of database management & experience with design tools (e.g., Figma, Adobe XD).
- **Nice to have Skills:** Experience with Swift & Kotlin, Git & VCS, Network programming.
- **Must Demonstrate:** Strong English and communication skills. Strong technical background within the discipline (your GPA must be over 2.75). Evidence of prior projects. Flexibility to learn new programming technologies as needed. Strong drive for quality, extreme attention to details and good problem-solving skills!

You must provide an evidence of prior experience within this domain; any work-related, course-related, or independent projects/certificates! Please provide a link to GitHub or Leet Code if available (or similar). Any other reference to your work is great to provide.

Interested candidates are kindly asked to fill in the form: <https://forms.gle/Ye6phuUQmpJz17vQA>

Please do not hesitate to contact us through contact@mat-insights.com should you have any questions.

Note: our team regularly reviews applications and they will reach out to the selected candidates for subsequent steps.
